SUNNYSIDE (B-SC) — Bright yellow with center of petals vermilion red.....	.75

PLANTING SUGGESTIONS

Roots should be planted 4-6" deep, depending on type of soil. Heavy soil — 4 inches; sandy or light soil — 6 inches. Better plants and blooms are obtained by mixing fertilizer with soil before planting (be sure to mix thoroughly). Do not plant dahlias in wet soggy ground or when ground is too cold. Dahlias do better in a bright sunny spot with good drainage. Lay roots flat.

SWEETEST (A-ID) — Base creamy yellow, shading pink nearly to tips	.30
TELEVISION (B-IC) — Blend, red and yellow.....	1.00
THE CARDINAL (A-SC) — Cardinal-red. A strong rugged grower..	.75
